Geology Scavenger Hunt

"Rocks and minerals: the oldest storytellers."

- A.D. Posey

Rocks are everywhere! They lay out our landscapes, shape our peaks and valleys, and keep us grounded. Join us in taking a closer look at the rocks and landscapes all around your neighborhood.

What stories can you find etched in the stones?

Local Landscapes

- | | |
|--|---|
| <input type="checkbox"/> Signs of landslides | <input type="checkbox"/> Boulders larger than cars |
| <input type="checkbox"/> Rocks behind waterfalls | <input type="checkbox"/> Exposed rock on a mountain |
| <input type="checkbox"/> Mountains | <input type="checkbox"/> Rolling hills |

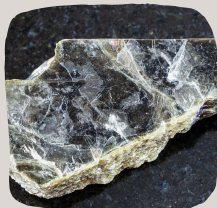

Rock Characteristics

- | | |
|--|--|
| <input type="checkbox"/> Split at a 90° angle | <input type="checkbox"/> Smooth |
| <input type="checkbox"/> Layered | <input type="checkbox"/> Sharp |
| <input type="checkbox"/> Veined | <input type="checkbox"/> Multi-colored |
| <input type="checkbox"/> Gritty | <input type="checkbox"/> Breaks off in flakes |
| <input type="checkbox"/> Bigger than your hand | <input type="checkbox"/> Sparkles in the light |
| <input type="checkbox"/> Smaller than your thumb | <input type="checkbox"/> Full of holes |
