THE JOY OF LEARNING OUTSIDE

RESILIENCE IN NATURE

Life in a Puddle	Plants that survived through the winter	Ants working together	Plants growing in gutters	Bird nest surviving strong winds
Grass growing after being cut	Plants standing tall in strong winds	Birds calling to one another	Bug with a missing leg	Plant growing over an object in its path
Plant growing on a steep hill	Fungi growing on a fallen log		Trees bending but not breaking in the wind	Plant growing through the concrete
Tree growing with exposed roots	Birds flocking together	Squirrel nest surviving strong winds	Plants growing in rock crevices	Spider rebuilding a web
Plants growing in unexpected places	Bees working together	Plant bending from the weight of an animal	Tree stump with mosses and lichen	Broken branch growing back
